1. The former German airfield at Zagan (Sagan-052/B26) is occupied by a Soviet Air Force fighter unit. About 20 single-engined fighters of an unidentified type were seen on the airfield. A southeast-northwest concrete runway, 80 to 100 meters wide, is being built. About one to one and a half kilometers have already been built and it is estimated that the total length will be about 2.5 kilometers.
2. The former German airfield near the military training area of Swietoszow (Neuhammer) in Lower Silesia is to be expanded or reconstructed.
